

DARCEY CHERUBINI

MULTIMEDIA EXECUTIVE PRODUCER

At heart a storyteller, a gifted communicator, and an instinctive negotiator, Darcey has combined these skills to optimum purpose and forged a distinguished career as an international producer of audiovisual materials for all media.

For many years, Darcey has honed her skills from the lowest general entry-level position through every step of the production hierarchy including 10 years as executive producer at JWT, New York and 3 years running her own global production consultancy in AsiaPacific and Latin America.

In 2010, aware of the global shift in advertising, she moved to Argentina, where she based her global production consultancy from Buenos Aires, South America's centre of production.

Since returned to Australia, the self-described “production animal”, Darcey is keen to engage in the next challenge of her career focused in the dynamic AsiaPacific, her home region.
